Sankt Pölten, Austria

linkedin.com/in/nikolaus-riedl

Cybersecurity MSc graduate from TalTech Tallinn (GPA 4.24/5.0, completed June 2026) with 1+ year hands-on SOC experience at T-Systems Austria. Expertise in Incident Detection & Response, SIEM-based threat analysis (Splunk, Microsoft Sentinel), system forensics, and malware research. Thesis: LLM-based automated honeynet generation. Passionate about detection engineering, reverse engineering, and threat hunting.

PROFESSIONAL EXPERIENCE

SOC Analyst (Working Student, 20h/week)

Dec 2023 – Aug 2024

T-Systems Cyber Security Austria · Vienna, Austria

- Continued SOC operations part-time — threat detection, alert analysis, and client communication.
- Independently built a secure ticket-synchronisation server between two platforms — adopted into production by the team.
- KQL query development and detection rule optimisation in Microsoft Sentinel.

SOC Analyst (Internship)

Sep 2023 – Nov 2023

T-Systems Cyber Security Austria · Vienna, Austria

- SOC triage and analysis across multiple client environments using Splunk, Microsoft Sentinel, and CrowdStrike EDR/XDR.
- Incident Response: escalation, containment, and documentation per MITRE ATT&CK framework and established playbooks.
- Developed and optimised KQL queries for threat detection and alert tuning in Microsoft Sentinel.
- Mapped IoCs to MITRE ATT&CK techniques; client-facing review meetings in German and English.

IT Security Intern

Jul 2023 – Aug 2023

Luware AG · Zurich, Switzerland

- Embedded in the Security Operations Team of a Swiss SaaS company (Microsoft UC solutions).
- Development and maintenance of Information Security documentation and processes.
- Identification and assessment of security risks; contributed to third-party security assessments.
- Hands-on exposure to ISO 27001 and SOC 2 Type 2 frameworks.

Postal Delivery Worker

Jul–Sep 2022 & Mar–Sep 2021

Österreichische Post AG · Sankt Pölten, Austria

- Delivery of standard mail, parcels, and official government correspondence across an assigned district.
- Cash disbursements of pensions and government payments — requiring a high level of trustworthiness and accuracy.

Military Service

Sep 2019 – 2020

Austrian Armed Forces · Sankt Pölten, Austria

- Mandatory conscript service — developed discipline, teamwork and resilience under operational conditions.

EDUCATION

MSc Cybersecurity

Sep 2024 – Jun 2026

TalTech — Tallinn University of Technology · Tallinn, Estonia

120 ECTS · GPA: 4.24 / 5.0 · EQF Level 7

Key courses: System Forensics, Cyber Incident Handling, Info Systems Attacks & Defence, Cybersecurity Technologies I, Hardening OS & Services, Math for CS, Human Aspects of CyberSec, Privacy-preserving Technologies, CPS Security, Security Management 1 & 3

Thesis: Automated Honeynet Generation from Natural Language: An LLM-Based Pipeline with Multi-Stage Validation and Empirical Evaluation

BSc Information Security

Jul 2021 – Apr 2024

FH Sankt Pölten · Sankt Pölten, Austria

CORE SKILLS

DETECTION & RESPONSE

Splunk MS Sentinel
KQL CrowdStrike
EDR/XDR Alert Tuning
Snort/Suricata

OFFENSIVE / FORENSICS

Kali Linux Metasploit
Burp Suite Nmap
Ghidra Volatility
FTK Imager Wireshark
Hashcat Aircrack-ng

FRAMEWORKS & STANDARDS

MITRE ATT&CK
Cyber Kill Chain STRIDE
MS Threat Modeling Tool
ISO 27001/27005 ITIL
NIS2 GDPR
BCM (ISO 22301)

INFRASTRUCTURE & HARDENING

Windows Server
Linux (SELinux)
Bash / PowerShell Ansible
VMware/VirtualBox
BitLocker/LUKS
Group Policy CPS/SCADA
Git SQL

CRYPTOGRAPHY & PRIVACY

PKI / TLS
MPC (Sharemind)
Homomorphic Enc.
Post-Quantum Crypto

PROGRAMMING

Python Java / C#
C / C++ Kotlin Swift

LANGUAGES

German

Native

180 ECTS · 6 semesters full-time	EnglishC1 · TOEFL 87/120
Focus areas: Software Security & Ethical Hacking, Network Security, Cloud & Infrastructure Security, Security Management (ISO 27001, ITIL, BCM)	SpanishBasic (A2)
Core subjects: Windows/Unix System Administration, Networks & Distributed Systems, Cryptography, Web & Application Security, Digital Forensics, Security Audits & Penetration Testing, Business Continuity & Disaster Recovery, Databases, Programming 1–4	
Practical project: penetration test against CERN infrastructure (Geneva) — vulnerability analysis, exploitation (Metasploit), and structured report	
Internship: 20 ECTS (semester 5) · T-Systems Cyber Security Austria	
<i>Thesis: Machine Learning based Recognition of Mobile Malware</i>	
Matura (A-Levels equivalent) — passed	2011 – 2019
Mary Ward Privatsgymnasium und ORG · Sankt Pölten, Austria	
Upper secondary school · Focus: Business & Management	
Examined subjects: German, English (B2), Mathematics, History, Business Ethics · Spanish (13 hrs/week, grades 5–8)	
	KEY COURSES
	• System Forensics (grade: 5) • Cyber Incident Handling (5) • Info Systems Attacks & Defence (5) • Hardening OS & Services (5) • Human Aspects of CyberSec (5) • Math for Computer Science (5) • Privacy-preserving Technologies (4) • CPS Security Fundamentals (A) • Security Management 1 & 3 (A) • Penetration Testing & Audits
	INTERESTS
	• Tennis & Volleyball • Running & Kickboxing • Electric Longboarding • Gaming
