PERSONAL INFO

Birth Date 09.12.2000
Nationality Austrian
License AM, B

LANGUAGES

German Native
English C1
Spanish Basic (A2)

SIEM & DETECTION

Splunk MS Sentinel QRadar
KQL CrowdStrike MS Defender
MITRE ATT&CK Snort/Suricata

FORENSICS & PENTESTING

Ghidra Volatility FTK Imager
Autopsy Wireshark Burp Suite
Metasploit Nmap Kali Linux
Hashcat Aircrack-ng

PROGRAMMING

Python Java/C# C/C++
Kotlin Swift

INFRASTRUCTURE & SCRIPTING

Bash/PowerShell Ansible
VMware BitLocker/LUKS Git
SQL

IDENTITY & NETWORK SECURITY

Active Directory/GPO PKI/TLS
VPN/IPsec RADIUS/802.1X
OWASP Top 10

STANDARDS & METHODS

ISO 27001/27002 ITIL COBIT
BCM/DR CVSS PTES

MSc Cybersecurity graduate from the joint TalTech and University of Tartu programme (06/2026; GPA 4.24/5.0) with one year of SOC experience at T-Systems: three months as a full-time intern, followed by nine months as a working student (20 hrs/week). Focused on Incident Detection & Response, SIEM, and security automation.

PROFESSIONAL EXPERIENCE

- 12/2023 – 08/2024 **SOC Analyst (Working Student, 20 hrs/week)**
T-Systems Cyber Security Austria · Vienna, Austria
– SOC triage, security event analysis, and incident response for client networks using SIEM and EDR platforms.
– Implemented tailored solutions for client requirements, including Python-based SOC automation; participated in client meetings in German and English.
- 09/2023 – 11/2023 **SOC Analyst (Internship)**
T-Systems Cyber Security Austria · Vienna, Austria
– Detected and evaluated cyber attacks using SIEM (Splunk, Microsoft Sentinel) and EDR/XDR (CrowdStrike).
– Incident Response according to MITRE ATT&CK framework and optimization of KQL search queries.
- 07/2023 – 08/2023 **IT Security Intern**
Luware AG · Zurich, Switzerland
– Embedded in the Security Operations team and contributed to the development of information security documentation.
– Practical exposure to security standards ISO 27001 and SOC 2 Type 2.
- 07/2022 – 09/2022 **Postal Delivery Worker**
Austrian Post AG · Sankt Pölten, Austria
03/2021 – 09/2021
– Sorting, preparation, and independent delivery of letters, parcels, and official government mail.
– Secure handling of cash-on-delivery transactions and trusted disbursement of pension payments.
- 09/2019 – 03/2020 **Military Service**
Austrian Armed Forces · Sankt Pölten, Austria

SELECTED PROJECTS

- Master's thesis 2026 **LLM-Based Honeynet Generation**
Developed a Python pipeline that generates honeynets from natural-language descriptions, with multi-stage functional and security validation and empirical evaluation.
- Bachelor project CERN **Penetration Test of Research Infrastructure**
Team-based security assessment covering vulnerability analysis, Metasploit-assisted exploitation, and a structured final report.
- Web project Live system **Self-Hosted E-Commerce Platform · Edelbrandfreunde**
Designed, deployed, and secured a production Saleor/Next.js shop using Docker Compose, GraphQL, PostgreSQL, Redis, and Caddy; hardened with UFW, security headers, rate limiting, and automated backups.

EDUCATION

- 09/2024 – 06/2026 **Master of Science — Cybersecurity (Joint Programme, 120 ECTS)**
Tallinn University of Technology (TalTech) & University of Tartu · Estonia
Studies completed across both universities in Tallinn and Tartu · GPA: 4.24 / 5.0 · EQF Level 7. Focus areas: System Forensics, Cyber Incident Handling, OS Hardening, and Privacy-Preserving Technologies.
- 07/2021 – 04/2024 **Bachelor — Information Security (180 ECTS)**
St. Pölten University of Applied Sciences · Sankt Pölten, Austria
Focus areas: Software & Network Security, Cryptography, Forensics, Security Management (ISO 27001, BCM).
Bachelor's Thesis: Machine Learning based Recognition of Mobile Malware
- 2011 – 2019 **Matura (High School Graduation)**
Mary Ward Privatgymnasium und ORG · Sankt Pölten, Austria
